**A GREAT SPIRITUAL LESSON FROM NATURE.**

Probably Jesus was walking along a farm, where the farmer was sowing the seed in early springtime. Jesus takes this opportunity to speak about the Kingdom of God.

The farmer entrusts his precious seed to the soil. He has complete trust that the soil will be able to provide the moist necessary for the seed to sprout. He also knows that the sun will provide the necessary warmth for life to start inside the seed. He also sleeps peacefully during the night and he does not worry about the seed. BUT the seed sprouts and grows even though the farmer does not know how; he does not even think about it; he only has to wait for the right time, the right weather and the right season. BUT he knows for sure that one day the harvest will be ready.

Our spiritual life is a bit like the soil of the farmer, who represents God. The seed is the gift of faith and the love of God for each one of us; we are the soil, where the farmer/God entrusts the seed. If we do not pose any obstacle, the seed will grow even when we do not realize it. The grace of God is active and productive, as long as we go along with the farmer. Another very important aspect is the waiting for the grace to grow in us. We are used to rush in everything! Not with God! He has the whole eternity and can wait without any problem for us to mature and grow. But we have to learn the patience to wait. First, we have to wait with our own personal growth; we cannot have everything instantly. A mother has to wait nine months before giving life to a new baby. It takes at least ten years for our physical body to grow to completion; it takes at least eighteen years of education for our intellectual formation. The student has to wait till the end of the year to graduate. We have to wait every night for the sun to come back with a new day. We must learn to wait and enter into the cycle of nature and most of all the cycle of God.

Patience with ourselves, patience with our family, patience with our children, patience with God. That is the lesson we get from the farmer who sows the seed in the soil, trusting that nature will provide everything needed for the seed to grow and bear fruit. Are we able to enter into this atmosphere of divine patience?
